“Da oltre 70 anni, Gruppo Geromin impiega materiali di pregio e tecnologie all’avanguardia per progettare e realizzare ambienti wellness e arredo bagno di qualità.”

“The Geromin Group has been using high-end materials and cutting-edge technology for more than 70 years, to design and create wellness areas and bathroom furniture.”

GEROMIN

HAFRO - SAUNA VITA

“We bring a special kind of creativity to what we do, which comes from working as a team. We are all on board the same ship, sailing towards exciting new products, collections and designs. This is the spirit of the Geromin Group, and this is what brings us pleasure every day, as we create exceptional things.”

“Lavoriamo con quella speciale creatività che nasce dalla collaborazione, dal sentirsi tutti parte di un grande equipaggio in navigazione verso l’emozione di un nuovo prodotto, una nuova linea, un nuovo design. E’ questo lo spirito che anima il nostro Gruppo, e che ogni giorno ci fa trovare il piacere delle cose fatte a regola d’arte.”

Geromin 4.0

L’innovazione è smart

L’impiego di tecnologie avanzate in tutto il processo gestionale
e produttivo consente un approccio intelligente che sincronizza
la produzione con le richieste dei clienti.

SMART INNOVATION
We use advanced technology throughout the management and production process.
This means we can take a smart approach, synchronising production with customer demand.

In Geromin, l’evoluzione “smart”
si traduce in mezzi tecnologici di alto
livello e processi di digitalizzazione
che collegano
le risorse e ottimizzano tutte le
fasi di produzione.
Questo carattere tecnologico
di alto livello unito al sistema just in
time si traduce
in un’elevata flessibilità per l’azienda
e nella massima soddisfazione dei
clienti.

At Geromin, the smart evolution has brought about a process of digitalisation, which matches up resources and optimises every stage of production. The use of high technology, combined with just-in-time production, makes us highly flexible as a company.
This translates into exceptional customer satisfaction.

3D Evolution

L'evoluzione nel punto vendita

Con il software TRICAD LITE, ogni rivenditore
Geromin guida il cliente nelle fasi di progettazione del bagno
in 3D e supporta l’azienda nella gestione degli ordini.

RETAIL EVOLUTION
Using TRICAD LITE software, each and every Geromin retailer can help customers to design their bathrooms in 3D and support
the company in managing orders.

Dalla configurazione della stanza
alla proposta dell’arredobagno, fino
al preventivo e all’invio dell’ordine:
lo spazio viene configurato e
progettato virtualmente con tutti gli
elementi d’arredo, come basi, pensili,
moduli a giorno, colonne, top, lavabi,
specchiere e accessori. Utilizzando
prezzi
e codici sempre aggiornati,
il rivenditore ottiene e fornisce
un preventivo reale dell’arredo
selezionato che si traduce in un
ordine da trasmettere direttamente
all’azienda.
Uno strumento efficace ed efficiente
per rivenditore e azienda, che dà
ulteriore
valore al cliente.

From the room layout to the bathroom furniture, right through to the quote and final order, the space can be designed, configured and fully furnished virtually. The furnishings on offer include base units, wall units, open units, columns, tops, washbasins, mirrors and accessories. Retailers have access to up-to-date prices and product codes, meaning they can provide customers with a quote in real time for the chosen furniture. This translates straight into an order, sent directly to us.
The tool is effective and efficient for both the retailer and the manufacturer, and provides added value for the customer.

Finiture

Finishes

Essenze del legno, effetti marmo, finiture materiche o colori pieni: la nostra varietà di materiali e tonalità è il tuo punto di partenza per personalizzare il bagno e creare ambienti coordinati.

Wood grain, marble-effect, textured finishes and full colours: our range of materials and finishes is the place to start.
Customise your bathroom and create a coordinated space.

FINITURA VENEZIA

Venezia finish

Una finitura innovativa che coniuga la resistenza e la raffinatezza del vetro a particolari lastre che riproducono un elegante effetto marmo, lucido o opaco. Questo nuovo materiale permette di ottenere arredi dal design pulito e moderno e di rivestire con continuità le basi di Eclipse.
Il Bianco Calacatta è caratterizzato dalle sfumature chiare dell'omonimo e pregiato marmo italiano;
il Nero Marquinia presenta le tipiche venature bianche e marcate del celebre marmo spagnolo da cui prende il nome.

This innovative finish combines the refined, resistant properties of glass with special slabs featuring an elegant glossy or matt marble effect. This new material allows you to create furniture with a simple, modern design. Use it to clad the Eclipse base units to create continuity.
The white Calacatta finish features the same delicate shades as the precious Italian Calacatta marble, while
the black Marquinia flaunts the marked white vein of the prized Spanish marble going by the same name.

VENATURA DEL FRONTALE CHE SI ESTENDE SUL FIANCO E SUL TOP

Continuous vein across the front, sides and top

La particolarità del mobile con la finitura effetto marmo Bianco Calacatta o Nero Marquinia è soprattutto la sua continuità: le venature del frontale continuano sul fianco e sul top, senza interruzioni creando così un unico elemento.
La finitura Venezia, applicata alle differenti combinazione delle basi, crea composizioni uniche nel suo genere.

The unique feature of this unit in a white Calacatta or black Marquinia marble-effect finish is the continuous vein. Starting from the unit front, it extends to the sides and across the top, uninterrupted, to create a single element.
The Venezia finish, when applied to different combinations of base units, creates compositions that are truly unique.

FINITURE IMPIALLACCIATO: NATURAL WOOD E MILLERIGHE

Finishes: Natural Wood and Multistriped

Rovere e Noce rivestono l'arredo bagno con due diverse finiture: Natural Wood, che riproduce la texture delle venature, oppure Millerighe, caratterizzata da un disegno a righe verticali che crea un effetto tridimensionale sulle superfici. Tre le tonalità disponibili: il Rovere Termocotto, una particolare nuance ottenuta da un trattamento del legno che lo rende scuro; il Rovere Chiaro che presenta un effetto molto naturale; il Noce con venature calde e intense.

Oak and Walnut wood decorate the bathroom furniture in two different finishes: Natural Wood, which reproduces the wood-grain texture, and Multistriped, featuring a vertical-stripe pattern that creates a 3D surface effect. There are three shades available: Heat-treated Oak, offering a nuanced finish created by treating the wood to darken it; Light Oak, which has a very natural effect; and Walnut, with a warm, intense grains.

HPL - High Pressure Laminate

HPL - High Pressure Laminate

Lo Stratificato HPL è un materiale di eccellente qualità per le sue potenzialità funzionali ed estetiche. Le sue caratteristiche di resistenza all'usura e al vapore, l'igienicità e la versatilità nel taglio e nell'assemblaggio, ne fanno il materiale ideale per la realizzazione di sistemi d'arredo. Ideale inoltre per tutte le applicazioni dove sia necessario abbinare resistenza e design, lo Stratificato HPL, disponibile in varie tipologie, è il materiale qualitativamente più affidabile ed il più ricco di funzionalità estetiche anche per la creazione di complementi di design contemporaneo in genere. Inoltre, lo Stratificato HPL mantiene inalterate le sue caratteristiche estetiche e prestazionali per l'intero ciclo di vita.
È costituito internamente da strati di fibre cellulosiche impregnati con resine fenoliche e superficialmente da uno o più strati di fibre cellulosiche con funzione estetica, impregnati con resine termoindurenti e legati insieme da un processo ad alta pressione rispondente alla norma EN 438:2005. Le naturali variazioni di temperatura e umidità non compromettono le proprietà dello Stratificato HPL. La particolare compattezza dello Stratificato HPL assicura un'ottima combinazione di caratteristiche meccaniche quali la resistenza alla flessione, alla trazione, alla compressione ed all'impatto. L'omogeneità e l'alta densità dei pannelli garantiscono un'elevata resistenza all'estrazione degli elementi di fissaggio. Un'elevatissima percentuale di materie prime utilizzate per la sua produzione è rinnovabile.

High pressure laminate (HPL) is an excellent quality material, thanks to its functional and aesthetic properties. It is resistant to wear and steam, hygienic and versatile to cut and assemble. This make it an ideal material for making furniture. HPL is also ideal for all applications requiring both strength and a great design, and there are various different types. It is the most reliable material in terms of quality, while also being rich in aesthetic features. It can also be used to create contemporary design accessories in general. HPL also maintains its aesthetic and performance characteristics unaltered throughout its life cycle.
It is made up of layers of cellulose fibres impregnated with phenolic resins and features one or more layers of cellulose fibre on the surface, for aesthetic purposes. This surface layer is impregnated with thermosetting resins and bonded together by a high-pressure process, in accordance with standard EN 438:2005. Natural variations in temperature and humidity do not alter the properties of HPL. Being especially compact, HPL ensures an excellent combination of mechanical characteristics such as resistance to bending, traction, compression and impact. The panels are smooth and even, and have a high density, guaranteeing excellent resistance when removing fasteners. A very high percentage of the raw materials used for its production are recyclable.

MELAMINICI

Melamine

MELAMINICO EFFETTO 3D
3D-effect melamine

Materiali di primissima qualità che rispettano le certificazioni FSC e la normativa E1 dei truciolari V100 in riferimento all'emissione di formaldeide.

Top-quality FSC-certified materials, which also comply with E1 regulations for V100 chipboard as regards formaldehyde content.

FINITURA MILLENNIUM - MILLENNIUM FINISH
Ispirato al legno dolce dei pini rossi. Di essi trattiene tutta l'estrema levigatezza e omogeneità della composizione, qualità questa, che si può apprezzare soprattutto al tatto. Ciò che caratterizza fortemente questa nuova finitura è la sua evidente fiammatura, che crea intriganti effetti visivi grazie ad una successione imprevista di livelli opachi e lucidi. È questo contrasto che in Millennium diventa disegno decorativo estremamente forte e d'impatto.

Inspired by soft red-pine wood. Red pine creates a smooth, even finish you can really feel. What makes Millennium stand out is the dominant mottle, which creates a great visual effect with different areas of matt and gloss. The overall result is a decorative finish with real impact.

FINITURA ENGADINA - ENGADINA FINISH
Calda raffinatezza dal sapore vintage per Engadina, una nuova finitura che rielabora le venature tipiche dell'abete sabbiato, realizzata in una vasta gamma cromatica. Una soluzione dal gusto piacevolmente evocativo e retrò, che mantiene il caratteristico stile Cleaf nella rilettura di moduli estetici legati alla tradizione secondo una visione perfettamente calata nella contemporaneità.

Engadina is a new, elegant finish with a vintage twist, which reinterprets the typical grain of sandblasted spruce wood, in a wide range of colours. This finish has a retro, pleasantly evocative edge, which maintains distinctive Cleaf style for traditional modules, in a perfectly contemporary vision.

FINITURA SHERWOOD - SHERWOOD FINISH
Una superfice dalla forte personalità, che prende come riferimento la quercia padana, dai segni decisi e profondi, la natura si esprime qui con un linguaggio deciso ed inequivocabile. Le cromie selezionate dal Cleaf research lab, permettono a Sherwood di inserirsi sia in spazi classici che contemporanei, arredi, boiserie, allestimenti che ricercano nell'aspetto visivo e tattile un dettaglio di stile.

This surface finish is full of character, inspired by the oak trees of the Po valley. With deep, bold markings, Sherwood expresses the full force of nature. The shades selected by the Cleaf Research Lab allow Sherwood to be used both in traditional and contemporary spaces, for furniture, panelling and other installations for which stylish details are sought for the visuals and textures.

FINITURA ARES - ARES FINISH
Ispirata alle murature urbane tipiche dell'architettura industriale, la finitura Ares riproduce l'essenzialità e la profondità di una parete in calcestruzzo o intonaco spatolato.

Inspired by the urban wall designs found in industrial architecture, the Ares finish reproduces the simplicity and depth of a concrete or plastered wall.

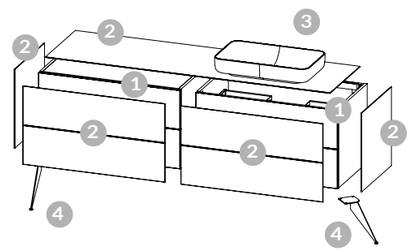
DESCRIZIONE MOBILE
Furniture description

1 Scocca base lavabo e accosto
In truciolare idrorepellente V100, in classe E1
di colore nero o bianco a seconda dell'effetto marmo scelto.

Washbasin base unit and flush base unit body
Water-repellent V100 chipboard, class E1,
black or white, depending on the chosen marble-effect.

2 Top, frontali cassetto e fianchi di tamponamento
Una finitura innovativa che coniuga la resistenza e la raffinatezza
del vetro sp. 4 mm temperato a particolari lastre, che riproducono
un elegante effetto marmo lucido o opaco. Permette di rivestire con
continuità le basi di Eclipse.
- Bianco Calacatta
- Nero Marquinia

Top, drawer fronts and infill panels
This innovative finish combines the refined, resistant properties of
tempered glass, 4 mm thick, with special slabs featuring an elegant
glossy or matt marble effect.
Create continuity across the Eclipse base units.
- White Calacatta
- Black Marquinia



3 Lavabo
Possibilità di inserimento di qualsiasi tipo di lavabo in appoggio o
top con vasca integrata.

Washbasin
Insert any type of countertop washbasin or
top with built-in basin.

4 Piedini in metallo

Elite

L’essenza del legno ha molte forme, tonalità e matericità. La nuova lavorazione Millerighe caratterizza un arredobagno dal gusto ricercato e originale.

Wood as a material has many shapes, shades and textures. The new Multistriped finish gives the bathroom furniture an original, refined flavour.

La finitura Millerighe crea un effetto a rilievo sul frontale dell'arredo bagno, bello alla vista e piacevole al tatto. Dagli interni dei cassetti alle aperture a gola, tutto è curato nei minimi dettagli.

The Multistriped finish creates a relief effect on the unit fronts which both looks and feels great. From the drawer interiors to the groove grip, everything has been carefully studied down to the finest detail.

Fratino

Con il suo contributo di naturalezza, il legno nelle tre varianti, costituisce la struttura di un arredo bagno dalle ampie prospettive di personalizzazione.

Adding a natural touch, wood is used in three different variants and provides the structure for bathroom furniture which leaves plenty of room for customisation.

La sagomatura e le finiture in essenza sono perfette per ambienti bagno tradizionali, mentre i colori, lucidi o opachi, e le texture materiche creano soluzioni adatte a bagni contemporanei.

Shaping and wood finishes are perfect for traditional bathroom spaces, while matt and glossy colours create a more contemporary look.

MINERALTEK

Mineraltek

MINERALTEK è un materiale composto dal 75% di cariche minerali naturali (carbonati di calcio e triidrati di alluminio) e 25% resina poliestere. Il film di smalto tecnico che riveste la superficie del materiale è di tipo poliestere acrilato che consente di ottenere ottime caratteristiche di resistenza.
L'estetica e le caratteristiche meccaniche e chimiche rendono questo materiale adatto all'arredo del bagno e degli ambienti pubblici. Mineraltek è un materiale molto versatile che permette lo sviluppo di molte forme: lavandini, piani, basamenti.
La pulizia frequente di Mineraltek assicura il mantenimento della sua bellezza originaria ed impedisce anche i segni dell'usura nel tempo. Alcune sostanze chimiche aggresive possono danneggiare la superficie di Mineraltek.
Prendersi cura di questo prodotto è facile e veloce. Per rimuovere la maggior parte di macchie, il calcare e lo sporco che normalmente si depositano sulla superficie, è sufficiente pulire con un panno o una spugna non abrasiva umida e comuni detergenti non abrasivi. Al termine della pulizia risciacquare bene la superficie.
Per la pulizia evitare l'uso di detergenti e spugne abrasive. Non usare raschietti metallici.
Questo prodotto ha una buona resistenza al calore, tuttavia evitare di appoggiare sulla superficie oggetti roventi o di scolare liquidi bollenti. Si sconsiglia l'uso di solventi chimici aggressivi quali acetone, trielina, solventi, acidi e basiforti. Alcune sostanze come inchiostro, cosmetici e tinture possono rilasciare coloranti sulla superficie: evitare che vengano a contatto con la superficie. Non appoggiare sigarette accese, non tagliare direttamente sulla superficie.

MINERALTEK is 75% natural mineral fillers (calcium carbonates and alumina trihydrate) and 25% polyester resin. The enamel film used to cover the surface is a polyester acrylate, which provides excellent resistance properties.
Its aesthetic, mechanical and chemical characteristics make this material perfect for bathroom furniture and furnishings in public spaces. Mineraltek is a highly versatile material that can take the form of basins, tops, and base units.
Mineraltek requires frequent cleaning to protect its original qualities and prevent signs of wear. Some aggressive chemicals can damage Mineraltek surfaces.
Product care is quick and easy. Most stains, limescale and dirt that may deposit on the surface can be removed with a damp cloth or non-abrasive sponge, and a standard, non-abrasive detergent. Rinse the surface thoroughly after cleaning.
Avoid abrasive detergents and sponges. Do not use metal scrapers.
This product is heat-resistant. However, avoid placing very hot objects or draining boiling liquids on the surface.
Do not use aggressive chemicals such as acetone, trichloroethylene, solvents, acids or strong alkalines.
Some substances such as ink, cosmetics and dye may release colourants on the surface;
avoid contact with these substances.
Do not rest lit cigarettes on the surface. Do not use cut directly on the surface.

TECNOTEK

Tecnotek

Sorprendente al tatto - Con la sua calda e piacevole sensazione tattile simile alle superfici naturali, rende il contatto diretto un piacere inaspettato.
Piacevole alla vista - Le forme fluide e l'assenza di giunzioni offrono sensazioni visive uniche, e le superfici scorrono continue
Igienico e facile da pulire - Le superfici si puliscono e ripristinano nella maggior parte dei casi con un panno morbido ed acqua, e nei casi più ostinati con detergente delicato e spugna abrasiva. La resina acrilica è adatta al contatto con alimenti.
Durevole nel tempo - Colore inalterabile rispetto alla luce naturale ed artificiale, alta resistenza a macchie, graffi e muffe. Essendo compatto e non poroso in tutto il suo spessore, è resistente agli agenti esterni e quindi si pulisce facilmente.
Ripristinabile - Essendo un materiale ultra compatto ed omogeneo in tutta la sua massa, danneggiamenti anche marcati (quali ad esempio incisioni dovute a cadute accidentali di pesanti oggetti appuntiti o taglienti) possono essere facilmente rimossi con una leggera azione abrasiva, seguita eventualmente nei casi più gravi da una lucidatura superficiale. Anche eventuali danni profondi o estesi, dovuti ad un uso improprio del materiale, possono essere riparati sul posto da personale specializzato, senza dover ricorrere alla sostituzione completa del manufatto.
Facilmente lavorabile - Si può tagliare, forare, fresare, piallare o intarsiare con normali utensili da legno.
Atossico - Esposto a temperature normali non rilascia vapori; quando brucia rilascia solo ossidi di carbonio e il fumo non contiene gas tossici. Viene smaltito con i rifiuti domestici.
Bagno coordinato - Linee morbide incontrano ogni tipologia di gusto, diventando così protagoniste all'interno della stanza da bagno. Grazie al Tecnotek possiamo avere all'interno del bagno lo stesso materiale sia sulla vasca che sul piano top del mobile in modo da creare un'armonia cromatica unica ed inimitabile.

Tactile – Pleasant to the touch, similar to a natural surface, this warm material turns direct contact an unexpected surprise.
Eye-catching – Fluid forms and the absence of any joints create unique visuals, and the surfaces flow in a continuum.
Hygienic and easy to clean – Surfaces can be cleaned with a soft damp cloth in most cases. For more stubborn dirt, use a mild detergent and an abrasive sponge. The acrylic resin is food-safe.
Long-lasting – The colour does not change with natural or artificial light. It is highly resistant to stains, scratches, and mould. As a compact, non-porous material throughout, it is resistant to external agents and easy to clean.
Easy to repair – As a highly compact, uniform material throughout, even significant surface damage (such as incisions caused by heavy sharp/pointy objects falling onto the surface) can be removed with a delicate, abrasive action. To repair substantial damage, also polish the surface. Deeper or more extensive damage caused by improper use can be repaired on-site by a specialist, without needing to replace the entire product.
Easy to process – It can be cut, drilled, milled, planed and inlaid using standard tools.
Non-toxic – It does not release vapours when exposed to normal temperatures. When it burns, it releases carbon oxides only and the smoke does not contain toxic gases. It can be disposed of as domestic waste.
Coordinated – Soft lines suit all tastes, making it the star of the bathroom space. Thanks to Tecnotek, the same material can be used for the basin and the unit top, creating a unique, harmonious colour palette.

QUARZI RESINA

Quartz resin

Top in quarzo composito prodotto con l'esclusivo processo Bretonstone® che le dona gli impareggiabili attributi di versatilità, resistenza, resa estetica, igienicità e facilità di manutenzione. L'agglomerato è costituito da quarzo puro, una resina strutturale e da pigmenti colorati. Le lastre sono disponibili con finitura lucida ed opaca (tatum). La vasca integrata viene ricavata dal pieno così da renderla un unico elemento privo di giunzioni.

Composite quartz tops are made using the exclusive Bretonstone® process, which makes them versatile, resistant, hygienic and easy to maintain. The aesthetic result is also second to none. The composite is made up of pure quartz, a structural resin and coloured pigments. The slabs are available with a glossy or matt Tatum finish. The built-in basin is carved out of the same solid slab, to create a single piece without any joints.

GRES

Gres

Gres deriva da una miscela di acqua e argilla. Si trasforma attraverso il processo di estrusione a crudo in una lastra dalle straordinarie caratteristiche meccaniche. L'esclusivo processo di trasformazione dell'argilla cruda conferisce maggiore coesione alla materia e permette di ottenere una lastra di spessore 3 mm.
La vetrificazione poi assicura resistenza massima all'assorbimento d'acqua poichè chiude i pori della materia, quindi alta resistenza alle macchie. Essendo un prodotto resistente a qualsiasi sostanza, non presenta particolari precauzioni nelle manutenzioni. Il consiglio rimane comunque un sapone neutro diluito in acqua.

Gres is created from a mixture of water and clay, which are transformed, via a process of extrusion, into a slab with exceptional mechanical properties. The transformation process of the raw clay makes the material more cohesive, obtaining a slab measuring 3 mm thick. A process of vitrification then ensures the material is fully resistant to water and stains, as it closes the pores. Resistant to any substance, this material does not require any special maintenance. A neutral detergent diluted in water is recommended for cleaning.

I top sono composti da resine e cariche minerali naturali, garantisce elevate prestazioni tecniche, ideali per ogni utilizzo domestico o pubblico. Grazie alla sua duttilità possiamo avere all'interno del bagno lo stesso materiale sia sul piatto che sul piano top del mobile in modo da creare un'armonia cromatica unica ed inimitabile.
Le dimensioni standard o altamente personalizzabili, la flessibilità d'installazione nonché la particolare resistenza all'usura e ai graffi hanno reso questo materiale particolarmente ideale per chi ricerca nelle varie colorazioni,
un bagno coordinato con la linea piatti doccia Forma di Hafro.

Forma tops are composed of resins and natural mineral fillers, guaranteeing high performance and making them ideal for any domestic or public use. Being extremely ductile, the same material can be used for the shower tray and the unit top, creating a unique, harmonious colour palette. Offering standard or customisable sizing, flexible installation and excellent resistance
to wear, this material is ideal for those looking to create a bathroom look to
match the Hafro Forma shower tray range, in all of the various colourways.

CORIAN®

Corian®

Resistente - Resistant
DuPontTM Corian® si è dimostrato un materiale di facile manutenzione e di grande durevolezza. Non si sfalda, sopporta bene l'uso quotidiano ed è in grado di resistere alla maggior parte degli urti, graffi e tagli cui sono soggette le superfici di aree a traffico intenso. Corian® è stato testato per verificare le caratteristiche meccaniche, termiche, elettriche e le altre proprietà della sua superficie. I risultati di questi test specifici e le informazioni dettagliate sulle altre proprietà fisiche di Corian® possono essere consultate on line nella scheda tecnica all'indirizzo **www.corian.it.**

DuPont ™ Corian® is easy to maintain and extremely durable. It does not split or flake. It tolerates daily use well and can withstand most of the knocks, scratches and cuts to which surfaces in heavily used areas are subjected. Corian® has been tested to ascertain the mechanical, thermal, electrical and other properties of its surface. For the results of these specific tests and for more detailed information about its other physical properties, please consult the online datasheet at **www.corian.it.**

Igienico - Hygienic
DuPontTM Corian® è un materiale non poroso. È compatto in tutto lo spessore e può essere installato con giunzioni impercettibili che rendono la superficie assolutamente igienica. Le superfici in Corian® non consentono la crescita di funghi e batteri. Corian® è stato certificato da un laboratorio indipendente quale materiale igienico ai sensi della norma internazionale DIN EN ISO 846.

DuPontTM Corian® is a non-porous material. It is compact throughout and can be installed without any joins, making the surface extremely hygienic. Corian® surfaces do not allow fungi and bacteria to grow. Corian® has been certified by an independent laboratory as a hygienic material according to international standard DIN EN ISO 846.

Riparabile - Easy to repair
Le superfici in DuPontTM Corian® possono essere rinnovate e riportate all'aspetto originale con un normale detergente abrasivo delicato e una spugnetta abrasiva. - Surfaces in DuPontTM Corian® can be restored to their original beauty using a normal, mild, abrasive detergent and an abrasive sponge.

Atossico - Non-toxic
DuPontTM Corian® è un materiale inerte e atossico. Esposto a temperature normali, non rilascia gas. Quando brucia, rilascia solo ossidi di carbonio, mentre il fumo che produce ha una densità ottica limitata e non contiene gas alogenati tossici. - DuPont ™ Corian® is an inert and non-toxic material. It does not release gases when exposed to normal temperatures. When it burns, it releases carbon oxides only. The smoke it produces has a limited optical density and does not contain toxic halogenated gases.

Colori a tutto spessore - Full-bodied colours
I colori e i motivi decorativi sono presenti in tutto lo spessore del materiale e non sono quindi soggetti ad usura. DuPontTM Corian® è un materiale solido e non si sfalda. - The colours and decorative patterns run through the full thickness of the material and are therefore not subject to wear. DuPontTM Corian® is a solid material and does not split or flake.

Giunzioni impercettibili - Invisible joins
La possibilità di realizzare incollaggi invisibili e superfici continue con giunzioni impercettibili.
Bonding is invisible with this material and the overall effect is that of a continuous surface without any joins.

Ecologico - Ecological
DuPontTM Corian® viene prodotto nel rispetto di norme severe per limitare gli scarti e il consumo di energia in ogni fase del processo produttivo. Il materiale, gli adesivi e i sigillanti utilizzati per l'installazione producono basse emissioni di composti
organici volatili (VOC) e hanno ottenuto la certificazione GREEN GUARD Indoor Air Quality Certified®.

DuPont ™ Corian® is produced in compliance with strict regulations to limit waste and energy consumption at every stage of the production process. The material, adhesives and sealants used for installation produce low emissions of volatile organic compounds (VOC) and have been certified as GREEN GUARD Indoor Air Quality Certified®.

TOP IN MASSELLO SCORTECCIATO SP. 6 cm

Solid debarked top th. 6 cm

Massello completo in legno trattato con staffe “annegate”.
Caratteristica del Top è il bordo frontale irregolare scortecciato a mano, che lo rende unico e irripetibile.

Full treated-wood top with built-in brackets.
The front edge of the top features a hand-crafted debarked finish, making it truly unique.

TOP IN MASSELLO DOGATO SP. 7,5 cm

Slatted solid top th. 7.5 cm

Massello completo in legno trattato con staffe “annegate” e bordo dritto.
Caratteristica del Top sono i masselli assemblati e uniti da 2 vitoni laterali a vista.

Full treated-wood top with built-in brackets and straight edge.
The top features solid oak planks assembled and joined by 2 hidden screws in the side.

Vasca THIN - Thin basin

Vasca SOFT - Soft basin

FINITURE CONSOLLE - CERAMICA Bianco lucido

Console finishes - Glossy white ceramic

Il composto per la produzione della ceramica è formato da materie prime naturali quali argilla, caolino, quarzo, creta, feldspato e roccia minerale. La resistenza alle alte temperature permette di cuocere il composto a circa 1280°C. L’igienico smalto liscio sulla superficie è resistente ai graffi, alle abrasioni e facile da pulire. La ceramica è piacevole al tatto, resistente al calore e alla luce.

The compound used to produce ceramic is made up of natural raw materials such as clay, kaolin, quartz, feldspar and mineral rock. Resistant to high temperatures, the mixture can be heated to around 1280°C. A hygienic, smooth enamel is used on the surface and this is resistant to scratches and abrasions, as well as being easy to clean. Ceramic offers a great surface texture, while also being resistant to heat and light.

FINITURE LAVABI - PLUS+TON

Washbasin finishes - PLUS+TON

Utilizza esclusivamente materie prime naturali di altissima qualità con la sola aggiunta di acqua e fuoco.
Da un’unica fusione ad altissime temperature di 1.250°, prende vita un materiale ceramico, qualificato come totalmente riciclabile e quindi 100% ecologico, derivato da un ciclo produttivo privo di emissioni inquinanti in atmosfera. PLUS+TON è una materiale anti-graffio, anti-macchia, anti-scivolo, anti-batterica e sostituisce facilmente quei prodotti realizzati con resine, solventi e catalizzatori, materiali altamente inquinanti e non riciclabili. Materiale anticalcare perché è privo di porosità, e allo stesso tempo anti macchia a qualsiasi agente che si depositi sulla superficie senza penetrare negli strati interni della ceramica, permettendone quindi la rimozione con solo acqua. È un materiale completamente atossico e sfavorisce il proliferare dei batteri.

This finish uses only the highest quality natural raw materials, with the addition of just water and fire.
A ceramic material is formed from a single fusion at an extremely high temperature (1,250°C). The material is fully recyclable and 100% ecological, thanks to the production cycle free being from polluting emissions. PLUS + TON is an anti-scratch, stain-resistant, non-slip, antibacterial material and can easily replace products made with resins, solvents and catalysts, highly polluting and non-recyclable materials. The material stops limescale from forming as it is non-porous, while also being resistant to any agent that deposits on the surface, without allowing any penetration to the internal layers of the ceramic. This means deposits can be removed using water. It is a completely non-toxic material and limits the proliferation of bacteria.

PIANI TOP

Tops

COSA COMUNICARE NELL'ORDINE DEI TOP
What to specify in your top order

TIPO DI LAVABO
Type of washbasin

Che si intende installare: soprapiano, tutto fuori
type of installation: inset, countertop

MARCA E MODELLO DEL LAVABO
Washbasin make and model

Oppure inviare direttamente la dima reale in scala 1:1 su supporti chiari e leggibili.
Or you can send a 1:1 scale template via clear and legible support.

FORO LAVABO E FORO RUBINETTO
Washbasin and tap holes

sono da specificare:
- foro lavabo
- foro rubinetto.

Please specify:
- washbasin hole
- tap hole

specificare la presenza di:
- rubinetti a muro (top senza foro rubinetto)
- rubinetti a 3 vie (top con 3 fori rubinetto - stesso prezzo)
- rubinetti decentrati (specificare se Dx oppure Sx).

Please specify:
- wall-mounted taps (top without tap hole)
- 3-way taps (top with 3 tap holes - same price)
- off-centre taps (specify LH or RH).

EVENTUALI FUORISQUADRA
Skew

È obbligatorio inviare una dima reale in scala 1:1. - Please send a 1:1 scale template

COME CALCOLARE IL PREZZO DEL TOP CON VASCA INTEGRATA
How to calculate price of a top with built-in basin

I prezzi dei Top sono indicati a metro lineare + lavabo integrato.
Esempio: Top con vasca integrata rettangolo "Tecnotek bianco" sp. 1,2 cm - L. 160 - P. 50 cm

The top prices are given per linear metre + built-in basin.
Example: top with white Tecnotek rectangular built-in basin th. 1,2 cm - L. 160 - D. 50 cm

Misura top Top size		EURO Prezzo categoria Price		EURO Aggiunta lavabo integrato Added built-in washbasin		EURO
ml 1,6	x	391 €	+	419 €	=	1.045 €

Servizio Clienti

Customer services

Per richieste particolari contattare il servizio clienti
For special requests, please contact customer services

Per i top a metro lineare minimo fatturabile L 50 cm indipendemente dalla sua profondità
For tops by the linear metre, the minimum billable amount is L 50 cm, regardless of depth

TOP SOSPESO CON VASCA INTEGRATA

Wall-mounted top with built-in basin

PREVEDERE UNO SPAZIO MINIMO DI 10 CM TRA LA VASCA E IL BORDO DEL PIANO, PER GARANTIRE IL CORRETTO INSERIMENTO DELLE STAFFE DI SOSTEGNO.
A minimum of 10 cm is required between the basin and the edge of the top, to ensure the support brackets can be correctly inserted.

Specchiere Double Light SU MISURA maggiorazione del 15% sulla misura più vicina

Esempio:
1. specchio L. **117** x H. **90**
2. scegliere a listino la misura **120 x 90**
3. il relativo costo 735 + **15%** = **845,25 ¤**

Per specchiere **oltre i 140** cm il prezzo è da calcolarsi sulla larghezza massima presente a listino in relazione all'altezza di serie, sommando **2,50 ¤** per ogni cm in più

Esempio 1:
Specchio L. **155** x H. **70** = **722 ¤ (00SCD140)**
+ 15 cm x 2,5 ¤ = 759,5 ¤

Esempio 2:
Specchio L. **150** x H. **80** = **793 ¤ (00SDD140)**
+ 10 cm x 2,5 ¤ = 818 ¤

CUSTOM Double Light mirrors
15% surcharge on the closest measurement

Example:
1. Mirror L. **117** x H. **90**
2. Choose measurement **120 x 90** from the price list.
3. The relative cost 735 + **15%** = **845.25 ¤**

For mirrors **exceeding 140 cm**, calculate the price by comparing the maximum width in the price list and the standard height, and adding **¤ 2.50** for each additional cm.

Example 1:
Mirror L. **155** x H. **70** = **722 ¤ (00SCD140)**
+ 15 cm x 2,5 ¤ = 759,5 ¤

Example: 2:
Mirror L. **150** x H. **80** = **793 ¤ (00SDD140)**
+ 10 cm x 2,5 ¤ = 818 ¤

Vedi lampade disponibili pag. 272-273-274-275

Specchiere per lampada e retroilluminate SU MISURA
maggiorazione del 15% sulla misura più vicina

esempio:
1. specchio L. **127** x H. **50**
2. scegliere a listino la misura **130 x 50**
3. il relativo costo 165 + **15%** = **189,75 ¤**

Per specchiere **oltre i 170** cm il prezzo è da calcolarsi sulla larghezza massima presente a listino in relazione all'altezza di serie, sommando **1,50 ¤** per ogni cm in più

esempio:
specchio L. **185** x H. **70** = **226 ¤ (SCF170)**
+ 15 cm x 1,5 ¤ = 248,5 ¤

See pages 272-273-274-275 for available lights
15% surcharge on the closest measurement for **CUSTOM mirrors with light and backlit**

Example:
1. Mirror L. **127** x H. **50**
2. Choose measurement **130 x 50** from the price list.
3. The relative cost 165 + **15%** = **189.75 ¤**

For mirrors **exceeding 170 cm**, calculate the price by comparing the maximum width in the price list and the standard height, and adding **¤ 1.50** for each additional cm.

Example:
Mirror L. **185** x H. **70** = **226 ¤ (SCF170)**
+ 15 cm x 1,5 ¤ = 248,5 ¤

Specchiere retroilluminate a Led H. 35/50/70/90/110 cm - L. max. 210 cm

Backlit LED mirrors H. 35/50/70/90/110 cm - L. max. 210 cm / 4000 K

• **Alluminio** - Aluminium
• **Non è possibile installare presa e interruttore e lampade a LED** - Socket, switch and LED lights cannot be installed

Fianchi di tamponamento sp. 1,3 cm

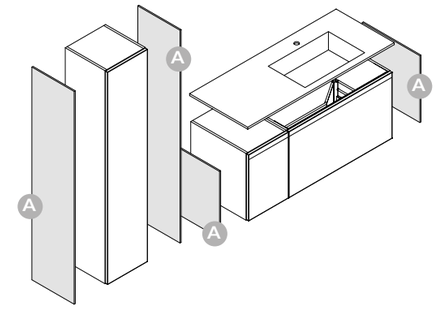
Infill panels 1.3 cm thick

Il fianco di tamponamento viene usato come optional a completamento della base.
L'applicazione è consigliato con l'uso delle maniglie Clip, oppure nei pensili e colonne con apertura Push & Pull.
Infill panels are optional and can be used to complete the base unit.
Recommended with Clip handles or for wall units and columns with push-pull opening.

A **Fianco di tamponamento sp. 1,3 cm**
per moduli Profondità 21 - 36,5 - 50 - 65 cm
Infill panel 1.3 cm thick, for modules with Depth 21 - 36.5 - 50 - 65 cm

N.B.: Con l'utilizzo di consolle in GEACRYL® da 70-90 cm di larghezza non si possono usare i fianchi di tamponamento.

N.B.: Infill panels cannot be used with 70-90 cm wide GEACRYL® consoles.



• **Spessore 1,3 cm, per moduli Profondità 21 - 36,5 - 50 - 65 cm**

Accessori per colonna H. 200 cm

Accessories for column H. 200 cm

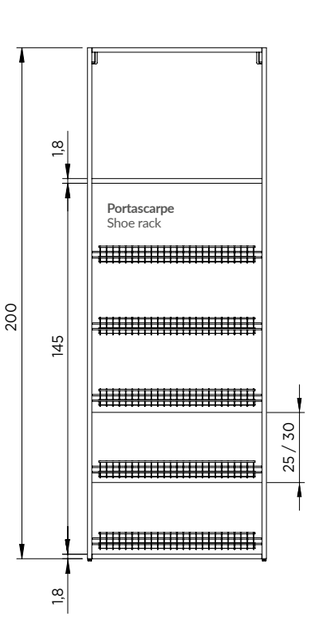
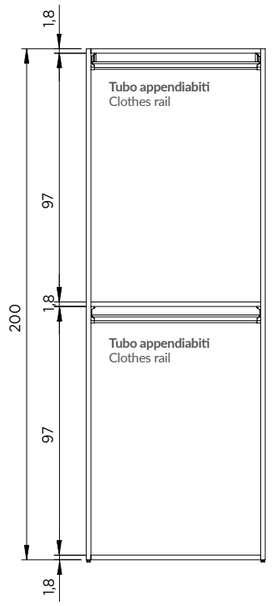
Elemento Item	Descrizione Description	Larg. Width cm	Codice Code	EURO
	Griglia portascarpe in metallo P. 23 (per colonne P. 36,5 e 50 cm) Metal shoe rack D. 23 (for column D. 36.5 and 50 cm)	50	00GRS050	**39**
		70	00GRS070	**48**
	**Tubo appendiabiti (per colonne P. 50 e 65 cm)** Clothes rail (for column D. 50 and 65 cm)		00TAA01	**34** **al metro lineare** per linear metre

Valutare in fase di progettazione l'ingombro degli eventuali accessori:
- da 25 a 30 cm per la griglia portascarpe
- da 120 a 95 cm per l'appendiabiti
il montaggio di tali accessori potrebbe escludere la presenza di eventuali ripiani
Consider the size of any accessories during the design phase:
- from 25 to 30 cm for shoe rack
- from 120 to 95 cm for coat rack
Installation of these accessories could exclude the presence of any shelves

I fianchi del mobile saranno predisposti per il montaggio degli accessori scelti (gli accessori saranno forniti separatamente)
The sides of the unit will be prepared for the assembly of the chosen accessories (the accessories will be supplied separately)





Inviare disegno di configurazione del mobile
Send the configuration drawing of the unit

Le colonne H.200 prevedono un ripiano fisso ad altezza 145 cm dal fondo, per conferire solidità al mobile e permettere, nel caso in cui sia richiesto, l'inserimento del meccanismo di apertura Push & Pull.
Nel caso in cui sia richiesto il montaggio di un appendiabiti l'altezza di tale ripiano verrà adeguata per una corretta distribuzione dei vani.
Columns H. 200 have a fixed shelf at 145 cm up for stability and to allow for a push-pull opening mechanism to be inserted, if required.
Where a clothes rail is required, the height of this shelf is suitable for the compartments to be correctly distributed.

GEACRYL® BIANCO LUCIDO SP. 1,2 cm

Gloss white Geacryl® th. 1,2 cm

GEACRYL® non è un materiale plastico ma un composito di cariche minerali naturali e polimeri leganti di alta qualità. Perfettamente compatto e di ottima resistenza meccanica, rivestito da uno strato di resina che conferisce lucentezza, resistenza chimica, eleganza e dà una sensazione al tatto molto simile ad un prodotto ceramico ma con delle qualità in più. GEACRYL® ha il vantaggio di ottenere oggetti dalle forme molto tecniche con superfici perfettamente speculari. Garantisce inoltre un'assoluta impermeabilità ed igiene all'utilizzo quotidiano. È resistente alle sostanze chimiche usate per la pulizia, ha proprietà antibatteriche, ignifughe e di autoestinguenza. Si può tagliare e forare con normali utensili da legno. Si può anche incollare, es.: per il doppio lavabo e scatolati. Il materiale è prodotto interamente in Italia nel rispetto delle vigenti normative ambientali. Il prodotto è conforme alla normativa UNI EN 14688 in vigore.

Elegante e Piacevole al tatto
Il film di rivestimento delle superfici conferisce ai manufatti in Geacryl® una lucentezza superficiale che li rende eleganti, piacevoli al tatto e molto simili al materiale ceramico.

Lucido
Le forme fluide e l'assenza di giunzioni offrono sensazioni visive uniche, e le superfici scorrono continue e speculari nella finitura lucida.

GEACRYL® is non-plastic composite of natural mineral fillers and high-quality binding polymers. It is perfectly compact and highly resistant, coated with a layer of resin which adds gloss, chemical resistance and elegance. The texture is similar to that of ceramic, with added qualities. The advantage of GEACRYL® is that it can be used to create objects with a very technical form, and perfectly symmetrical surfaces. It is also fully waterproof and hygienic for everyday use. It is resistant to cleaning chemicals and has antibacterial, flame-retardant and self-extinguishing properties. It can be cut and drilled with normal woodworking tools. It can also be glued, for example for twin and boxed washbasins. It is made entirely in Italy in compliance with current environmental regulations. The product complies with the UNI EN 14688 standard in force.

Elegant and pleasant to the touch
The surface film gives products in Geacryl® a surface sheen that makes them elegant, pleasant to the touch and very similar to ceramic.

Polished
Fluid, joint-free forms create a great visual effect, creating a symmetrical, continuous surface finish.

CERAMICA (modello Asso)

Ceramic

Il composto per la produzione della ceramica è formato da materie prime naturali quali argilla, caolino, quarzo, creta, feldspato e roccia minerale. La resistenza alle alte temperature permette di cuocere il composto a circa 1280°C. L'igienico smalto liscio sulla superficie è resistente ai graffi, alle abrasioni e facile da pulire. La ceramica è piacevole al tatto, resistente al calore e alla luce.

The compound used to produce ceramic is made up of natural raw materials such as clay, kaolin, quartz, feldspar and mineral rock. Resistant to high temperatures, the mixture can be heated to around 1280°C. A hygienic, smooth enamel is used on the surface and this is resistant to scratches and abrasions, as well as being easy to clean. Ceramic is pleasant to the touch, resistant to heat and light.

COME CALCOLARE IL PREZZO DEL TOP
How to calculate the price of the top

I prezzi dei Top sono indicati a metro lineare + foro e/o lavabo integrato.
Esempio: Top con foro lavabo tutto fuori "Geacryl® bianco" sp. 1,2 cm - L. 120 - P. 65 cm

The top prices are specified per linear metre + hole and/or built-in washbasin.
Example: Top with hole for "White Geacryl®" top washbasin 1.2 cm thick – L. 120 - D. 65 cm

Misura top Top size		EURO Prezzo categoria Price		EURO Aggiunta lavabo integrato Added built-in washbasin		EURO

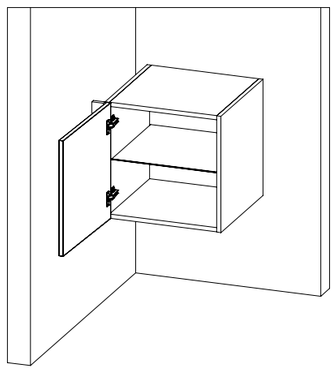
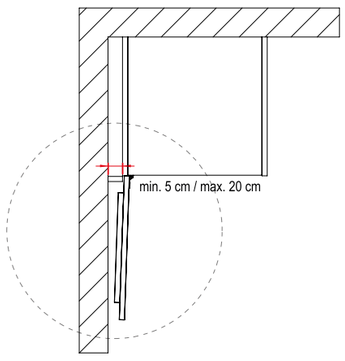
In caso di composizioni con mobili, accostati lateralmente a parete, è consigliato l'utilizzo di una fascia di tamponamento distanziatrice, per consentire una completa apertura del frontale ed evitare la collisione della maniglia con la parete stessa.
NB. è buona norma applicare questa regola sia nel caso di mobili con ante battenti che nel caso di cassetti o estraibili in quanto eventuali irregolarità della parete laterale potrebbero comprometterne l'apertura.

For compositions with units positioned with one side against the wall, use a spacer infill panel to ensure the unit front opens fully and to avoid the handle knocking against the wall.
NB. Please apply this principle both for units with hinged doors and with drawers or pull-out units as any unevenness in the wall to the side may hinder opening.



Vista superiore - Upper view



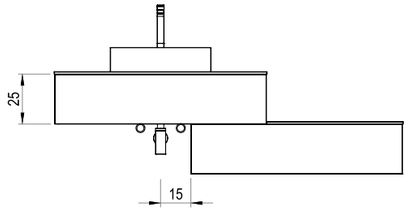
Alcuni informazioni utili

Some useful information

Basi sfalsate

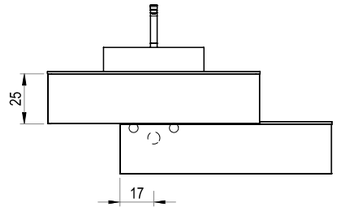
Staggered base units

In caso di basi lavabo H.25 sovrapposte è opportuno mantenere una distanza minima tra il sifone e il fianco della base inferiore.
For staggered washbasin base units H.25, keep there is space between the siphon and the side of the lower base unit.



Lavabo tutto fuori
Base inferiore con sifone **all'esterno**

Countertop washbasin
Lower base unit with **external** siphon



Lavabo tutto fuori
Base inferiore con sifone **all'interno**

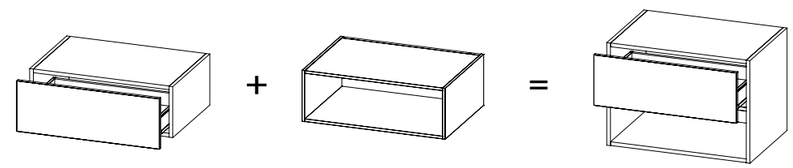
Countertop washbasin
Lower base unit with **internal** siphon

Moduli a giorno

Open modules

Su richiesta è possibile realizzare moduli con frontale e vano a giorno sovrapposti con struttura unica.
Note tecniche: Nel caso in cui il mobile debba essere sottolavabo, dovrà avere un frontale superiore di minimo 35 cm in altezza.
In caso di finitura laccata per la realizzazione del vano a giorno verranno utilizzati semilavorati sp.1,8 cm.
La profondità di quest'ultimo sarà naturalmente allineata a quella della struttura del sottolavabo.
Preventivo: Il prezzo totale è dato dalla somma dei prezzi, maggiorati del 15%, dei due moduli distinti.

On request it is possible to create modules with overlapping front and open compartment with a single structure.
Technical notes: if the unit is an under-basin unit, it must have an upper front of at least 35 cm in height.
In case of a lacquered finish, 1.8 cm thick semi-finished products will be used to create the open compartment.
The depth of this compartment will be aligned with the depth of the structure of the under-basin unit.
Quote: the total price is the sum of the individual prices plus 15% for the two separate units.



cod. BA1C0705
(+ Maggiorazione 15%)
(+ 15% surcharge)

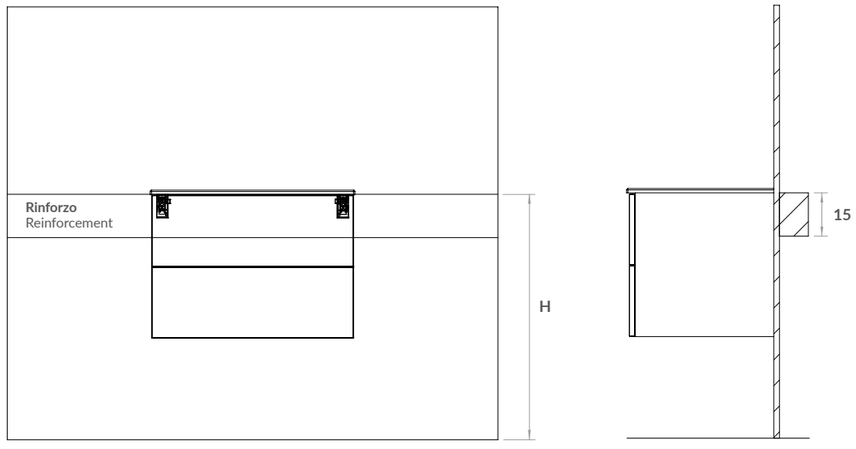
cod. MG1P0705
(+ Maggiorazione 15%)
(+ 15% surcharge)

Esempio - Example:
BA1C0705 **(¤ 252 +15%)** + MG1P0705 **(¤ 175 +15%)** = **TOT. ¤ 491,05**

Rinforzi cartongesso

Plasterboard reinforcements

H: L'altezza di installazione varia in funzione dell'altezza del mobile, del top ed eventuale lavabo (fare riferimento alle schede tecniche)
H: The installation height varies according to the height of the unit, top and any washbasins (refer to the technical data sheets)



Collegamento Strip Led e prese/interruttore

Connection of LED Strip and sockets / switch

Predisporre una presa di corrente posizionata dietro lo schienale del mobile
Prepare a power socket positioned behind the back of the cabinet

Condizioni generali di vendita

General terms and conditions of sale

1. ORDINI
Qualsiasi ordine è impegnativo per il committente; lo diventa per Gruppo Geromin srl solo a seguito di specifica conferma scritta.

2. ANNULLAMENTO ORDINI
L'annullamento di un ordine implica l'accettazione scritta da parte di Gruppo Geromin srl.
Gruppo Geromin srl si riserva la facoltà di addebitare al committente tutti gli oneri conseguenti.

3. TEMPI DI CONSEGNA
I tempi di consegna devono esser considerati puramente indicativi;
in caso di ritardo non è riconosciuto alcun indennizzo.
La consegna dell'ordine si intende evasa all'atto della presa in carico del prodotto, presso il magazzino Gruppo Geromin srl, da parte del vettore incaricato del trasporto.

4. PAGAMENTI
Le condizioni di pagamento, se non diversamente indicate in fattura, sono le seguenti:
- vendite nazionali: 30 gg df, in presenza di una linea di credito accordata;
  diversamente, pagamento anticipato all'atto della consegna
- vendite export: lettera di credito irrevocabile confermata da primario istituto di credito italiano.

I prodotti forniti rimangono di proprietà di Gruppo Geromin srl fino all'avvenuto completo pagamento in conformità agli artt. 1523 e seguenti del Codice Civile.

5. DANNI DA TRASPORTO
Il cliente che riceve un prodotto danneggiato durante il trasporto deve firmare, con riserva, la bolla di consegna e comunicare a Gruppo Geromin srl, entro il termine di 8 giorni, a mezzo lettera mail o lettera raccomandata, il danno rilevato.

6. RESI
I resi devono essere espressamente autorizzati da Gruppo Geromin srl. In ogni caso restano a carico del committente gli oneri relativi al trasporto, nonché i costi amministrativi quantificati nella cifra minima del 25% del valore di fatturazione.
Non si accettano resi riguardanti prodotti realizzati su specifica richiesta.

7. GARANZIA
I prodotti Gruppo Geromin srl hanno una garanzia di 24 mesi a decorrere dalla data di consegna.

8. PREZZI
I prezzi del presente listino sono Iva esclusa e per merce resa franco fabbrica.
L'installazione dei prodotti è sempre esclusa e deve avvenire a cura dell'utilizzatore finale.
Gruppo Geromin srl si riserva la facoltà di variare i prezzi di listino senza obbligo di preavviso.

9. RESPONSABILITÀ PER EVENTUALI DANNI
In presenza di eventuali danni causati da difettosità di prodotto, Gruppo Geromin srl se ne farà carico nella misura prevista dalla legislazione vigente.

10. FORO COMPETENTE
Per qualsiasi controversia è esclusivamente competente il foro di Venezia.

Le foto sono puramente dimostrative. Riferirsi alle schede tecniche per dettagli tecnici.
Gruppo Geromin srl si riserva il diritto di apportare modifiche al prodotto in qualsiasi momento senza darne alcun preavviso.

1. ORDERS
All orders are binding for the customer. Orders become binding for Gruppo Geromin srl only after written confirmation.

2. CANCELLATION
Cancellation of an order requires written approval from Gruppo Geromin S.r.l.
Gruppo Geromin S.r.l. reserves the right to charge the customer for all resulting expenses.

3. DELIVERY
All delivery dates are purely indicative.
No compensation will be due in the event of any delays.
An order is considered delivered as soon as the courier collects the products from the Gruppo Geromin S.r.l. warehouse.

4. PAYMENT
Unless otherwise stated on the invoice, the payment terms are as follows:
- sales in Italy: payment due within 30 days of the invoice date where there is an approved credit line;
  otherwise, payment due upon delivery
- international sales: irrevocable letter of credit confirmed by a major Italian bank.

All products remain the property of Gruppo Geromin S.r.l. until payment has been made in compliance with articles 1523 et seq. of the Italian Civil Code.

5. DAMAGE DURING TRANSPORTATION
Customers who receive a product that has been damaged during transporting must sign the delivery note, indicating the goods as "unchecked", and report the damage to Gruppo Geromin S.r.l. via email or registered letter within 8 days.

6. RETURNS
Returns must be expressly authorised by Gruppo Geromin S.r.l. In all cases, all resulting transportation costs and administration fees (minimum 25% of the invoice amount) will be charged to the customer.
to 25% of the invoice value.
Custom-made products are non-returnable.

7. WARRANTY
All Gruppo Geromin S.r.l. products are covered by a 24-month warranty starting on the delivery date.

8. PRICES
List prices exclude VAT and are for products shipped Ex Works.
Product installation is excluded and must be carried out by the end user.
Gruppo Geromin S.r.l. reserves the right to modify list prices without prior notice.

9. LIABILITY FOR DAMAGE
In the event of any damage caused by a defective product, Gruppo Geromin S.r.l. will be held liable to the extent applicable under the laws in force.

10. COURT OF JURISDICTION
Any disputes will be settled by the Court of Venice.

Images are purely illustrative. Please refer to the technical datasheets for all technical specifications.
Gruppo Geromin S.r.l. reserves the right to modify its products at any time without prior notice.
